EDUCATION

- Institut Ivoirien de Technologie** Grand-Bassam, Côte d'Ivoire
Bachelor of Science - Software Engineering September 2020 - August 2023
Courses: Operating Systems, Data Structures, Advanced Algorithms, Artificial Intelligence, Networking, Databases
- Korea University of Technology and Education** Cheonan-si, South Korea
Master of Science and Engineering - Assistant Researcher September 2025 - Present
Activities: In the DICE Lab, i work closely with professor Oh Heung Son to explore and advance the performances of memory systems for AI agents

SKILLS SUMMARY

- Languages:** **Intermediate:** Python, JAVA, Dart, JavaScript
- Frameworks:** **Intermediate:** Pytorch, TensorFlow, Flutter, FastAPI, Next JS
- Tools:** Terraform, Firebase, Airflow, Kafka, Docker, GIT/GitHub, MySQL, PostgreSQL, MongoDB
- Soft Skills:** Leadership, Blogging, Public Speaking, Time Management
- Certification:** Google Cloud Certified Associate Cloud Engineer
- Language Exam Scores:** TOEIC: 940, TOPIK (Korean Language Proficiency Test): 189 (Advanced Intermediate)

EXPERIENCE

- Sikili**
CTO and Supply Manager (Contract) November 2024 - present
 - Role:** Early team member at Sikili (seed, \$800K raised); designed and deployed internal tools and automation systems that enabled revenue growth from \$0 to \$200K ARR within the first year.
- Futurafric IA**
Fullstack Software Engineer → Technical Lead Mobile (Full-time) Aug 2023 - May 2024
 - Technical Lead Mobile (Jan 2024 – May 2024):** Promoted after 5 months; oversaw end-to-end delivery of mobile products from UI/UX design to deployment on iOS and Android, while continuing to contribute to backend and API development.
 - Fullstack Software Engineer (Aug 2023 – Jan 2024):** Rebuilt the company website from scratch and developed various solutions, including a social network mobile app and a lunch management app.
- Ebenyx Technologies**
Software Engineer Intern (Full-time) Jul 2022 - Aug 2022
 - Role:** My mission was to work on an electronic signature application to digitalize processes in a big institution
- Casys Technologies**
Software Engineer (Part-time) Oct 2021 - Feb 2022
 - Role:** Worked on the automation of the encoding process of smart cards by developing a CLI tool to encode, initialize and communicate with improving this process speed by 300%, utilizing Javacard and Batch

PROJECTS

- Oh My Hermes – Workflow Layer for Hermes Agent:** An opinionated workflow layer for building, shipping, and operating apps with Hermes Agent. Provides 20 curated skills and 5 specialized agents (CTO, PM, Dev, QA, Ops) covering the full idea-to-deploy lifecycle — from requirements clarification to Vercel deployment, Supabase integration, GitHub ops, and an autonomous CTO loop.
 - Stack:** Shell, TypeScript, Docker
 - GitHub:** github.com/Salomondiei08/oh-my-hermes — 400+ stars
- Kernel – Shared Agent Memory:** LLM-agnostic memory infrastructure that enables context sharing between coding agents within a project. Built a persistent memory layer with a hook-based integration, allowing agents like Claude Code and Cursor to share and query context across sessions without manual configuration.
 - Stack:** TypeScript, Node.js, REST API
 - Website:** usekernel.dev
- AYA – AI English Learning Bot:** WhatsApp and Telegram-based AI English learning bot for French-speaking West Africans. Features a gamified 6-level progression system and LLM-powered conversation practice with voice note support. Growing user base across West Africa (100 Users in 24h).
 - Platforms:** WhatsApp, Telegram, Web
- TourCI:** Developed a mobile application enabling users to explore and virtually tour the diverse attractions of Côte d'Ivoire through immersive 360-degree experiences. Used Flutter for the front-end, FastAPI, and MongoDB for the back-end.
 - Platforms:** Web, iOS, Android

HONORS AND AWARDS

- 1st Runner Up for the Best Overall application at the Supabase Flutter Hackathon - May, 2023
- 1st Prize at INPHB Freelance Hackathon - Feb, 2023
- GKS (Global Korean Scholarship) Recipient - 2024
- 1st Prize at the Orange CI 5G Challenge - Jul, 2022
- 10,000 Codeurs Ambassador - Sep, 2021

VOLUNTEER EXPERIENCE

- | | |
|---|----------------------------|
| • University Student Council President | Grand-Bassam, CI |
| • <i>Supervision of club activities and organization of educational and recreational events</i> | <i>Dec 2021 - Dec 2022</i> |
| • High School Computer Science Club President | Yamoussoukro, CI |
| • <i>Conducted technical & soft-skills training impacting over 300 students</i> | <i>Sep 2016 - Jul 2018</i> |
